What is an Error?

Grading Guidelines for the CRC Skills Test

- The CRC Skills Test consists of five minutes of professionally recorded audio dictation material (straight matter) at 180 words per minute. Passing is 96%. Allowable number of errors is 36.
- The CRC Skills Test is developed based on the rules of punctuation set forth in *The Merriam Webster's Dictionary*. Paragraphing is recommended but not required.
- Automatic Fails:
 - ✓ Two drops of 10 or more consecutive words.
 - ✓ A submitted uploaded file that does not contain printable data.
- The following list of errors will be used as a guideline for correcting tests. In all cases of dispute, the NCRA Grader, guided by all the principles set forth herein, will render the final decision, subject to appeal to the Council of the Academy of Professional Reporters. Please see the bottom of the page for an explanation of errors.
