

THE BEST OF SOCIAL MEDIA TIPS

NCRA is celebrating the 14th National Court Reporting & Captioning Week Feb. 7-14, 2026, with the theme: *Peace, Love & Steno*. This is a nationally recognized week to showcase and highlight the value of stenographic court reporting and captioning careers and that AI cannot, nor ever should, replace a live human in the role of capturing the official record or captioning the spoken word as their skills are the gold standard of the industry. Also celebrated throughout the week will be the contributions of stenographic court reporters and CART and broadcast captioners to the public and the growing career opportunities that exist in these fields.

To make the week a success, we are asking for your support. Please share information about our upcoming awareness week and your endorsement of the stenographic court reporting and captioning professions to your friends, neighbors, and any connections you may have in the legal area.
