

Looking for work-life balance?

Consider a career in court reporting or captioning!

The court reporting and captioning professions offer viable career choices that **do not require a four-year college degree** and yet offer **good salaries, flexible schedules, and interesting venues**. Court reporters and captioners rely on the latest in technology to use steno machines to capture the spoken word and translate it into written text in real time. These professionals work both in and out of the courtroom recording legal cases and depositions, providing live captioning of events, and assisting members of the deaf and hard-of-hearing communities with gaining access to information, entertainment, educational opportunities, and more.
